## POETRY.

### "I WISH I WAS AN EDITOR."

I wish I was an editor,
I really do indeed;
It seems to me that editors
Get every thing they need.
They get the biggest and the best
Of every thing that grows,
And get in free to circuses
And other kinds of shows;
And when a mammoth cheese is cut
They always get a slice,
For saying Mrs. Smith knows how,
To make it very nice;
The largest pumpkin, and longest beet
And other garden, stuff
Is blown into the sanctum by
An editorial puff
The biggest bug will speak to them,
No matter how they dress—
A shabby coat is nothing, if
You own a printing press;
At ladies' fairs they're almost hugged
By pretty girls, you know,
That they may crack up everything
The ladies have to show—
And thus they get a blow-out free,
At every party feed;
The reason is, because they write
And other people read.

On motion, the report was accepted and adopted.

On motion, the Board adjourned to 1½ o'clock P. M.

AFTERNOON SESSION.

Board met pursuant to adjournment, and was called to order by the Chairman.

Roll called—present a quorum.

Mr. Winegar, from the Committee appointed to enquire into the expediency of establishing a similar institution to the House of Correction in connection with the County Poor House, submitted the following report:

*To Board of Supervisors of Washtenaw Co., Mich., in session, Monday, Oct.* 14, 1867.

A communication from Z. R. Brockway, Superintendent of the Detroit House of Correction, was read by the Clerk, stating that the contract of this county with that institution had expired, and would be renewed on terms stated, if desired.

Referred to a committee of three, consisting of Messrs. Winegar, Bond and Cook.

On motion of Mr. Gilbert, the same committee was instructed to inquire into the expediency of establishing a similar institution to the House of Correction in connection with the County Poor House.

Your Committee having given to the important subject committed to them such attention as the time has allowed, beg leave to report as follows:

The resolution of Mr. Gilbert is understood as intended to elicit information with regard to providing employment for prisoners and paupers. A broad distinction is to be drawn between the two classes. Humanity and civilization bind us to this. The prisoner, when held as such for crime, has incurred the censure of society, and is suffering her just discipline. The pauper is to be regarded as one whom Providential dispensations have deprived of the usual opportunities for self-support. Recognizing him as such, society, under a proper construction, of the law of brotherhood, takes him in her charge. His poverty may be owing to his vice, but such censure as would involve neglect is waived. He is before society merely a sufferer. The usual County House is an arrangement to perfectly apportion the burden of maintenance and meet the various forms of distress.

The prisoner and the pauper may be taken into one view as wards of society. Civilization, and certainly Christianity, have no thought of simple vengeance by torture, whatever the crime. The theory of the prison is, the restraint of the vicious, the terror of crime, and the care of the diseased member of community. Witness the provision of chaplains and teachers for prisons; also libraries, and the "good time law." If society is thus tender to crime, much more to misfortune.

It becomes, therefore, the duty of your Board to inquire how far it is discharging its duties toward these beneficiaries. In this view the resolution is eminently proper.

We will first briefly inquire into the condition of prisoners. The several classes of prisoners are, persons serving out a term of sentence, persons detained on charges, and persons held informally as vagaants. Under our present jail system, these several classes share alike in prison discipline. They are confined at night in the cells, but unless under some punishment for violation of prison law or regarded as liable to escape, the prisoners pass the day in a common hall. On Sunday a clergyman holds a short service and distributes religious reading.

This is the life led not infrequently for several months.

Is this reforming the criminal? Is this even investing the prison with terror? Is this society's due care of its wards? What have you to expect of the man, and especially the boy, who is put upon society after several months every year of such life? What would you think of subjecting a youth of actual moral disposition to such an experience? Aside from the association, what must you expect to reap from the sowing of such idleness? Are we not, under the profession of reformation, sustaining a school of vice in our midst? Are we not helping to swell that great flood of crime which is sweeping over the land? Is it not a grand error connected with our Penal system that social science and benevolence deal entirely with State Prisons with crime in its grand dimensions, and leave unguarded the Institutions where first the hand of Justice is laid on the criminal?

The condition of the inmates of the Poor House is an improvement upon that of the prisoners. The women are employed in care of the house, and the men on the farm, while a pauper acts as teacher for the children. Yet this provision for employment is inadequate, especially in the winter.

The evils of idleness extend to the County House, while the very fact that there is no systematic provision for labor, tends to draw thither the class who are willing to be anywhere, provided they can lead a life of animal ease.

We may ask then, again, is this society's due care of its wards? Is this benevolence wise and thorough in its work?

The necessity then of providing employment for these two classes is obvious. In behalf of employment for prisoners, it may be further urged, that a system of overstent might be introduced, allowing the prisoner some portion of his earnings, thus enabling him on leaving to put himself in the way of employment, instead of sending him back to his associates in vice and crime. It is also worthy of consideration, that the present condition of our jails often prevents the arrests of boys, and even their conviction. Humanity suggests that to send them to jail is only to teach them more effectually the ways of iniquity.

The resolution contemplates an Institution in connection with the County Poor House. The distinction between the pauper and criminal must in all humanity, and in justice even to civilization, be carefully preserved. Yet it is believed that with proper Buildings erected on the County farm, the two classes might be furnished with work. Some raw material might be brought into shape by the prisoner to be wrought by the feebler paupers.

It is further suggested, that a committee of this Board be appointed to gather information relative to the matters in question. There are several prison associations in the County, and important reports on Poor Houses are to be obtained, and it may be that the experiment contemplated by the resolution has been tried elsewhere.

In conclusion, your Committee earnestly urge, that should any plan suggested by your Board be found feasible, that no reasonable expenditure should be declined. Crime is fearfully costly. One criminal endangers the property and even persons of numbers. And one pauper is a sore on the community. An Institution that says to every pauper and every prisoner: Labor is the law of life; will be an honor and a blessing to Washtenaw County, and civilization and christianity will hail such an advance.

Conceding now the necessity of some reform in the manner of confining aged and hardened offenders with youthful vagrants, or other persons charged with small offenses, or a first offense; and conceding also the absolute need of some sort of labor, both winter and summer, for certain classes of offenders and paupers, the question arises, what are the present legal powers of the Board in the premises?

For the effectual working of a new system it would be essential that the County Farm and Jail should be combined with something in the nature of a House of Correction, on the same premises.

The Board of Supervisors is a Constitutional tribunal "having such powers of a local, legislative and administrative character" as may be conferred upon it by law.—ART. iv, § 38. ART. x, § 6.

It has no powers except such as are simply granted, and such as by necessary implication, are consequent of the expressly granted powers. It has entire control of the whole question of paupers (acting with and through the Superintendents of the Poor.)—COMPILED LAWS, §§ 1342–1521.

There is no difficulty then as to the paupers.

As to criminals, vagrants and juvenile offenders:

The laws of 1846, Comp. L. § 5580 declare that the buildings then used (1846) as jails and prisons in the respective counties in the State, "shall *be* and *continued* such."

The Board has no power to remove such jails out of the limits of the City or Village where they now continue.—COMP. L. § 45. SUB. §§ 3 and 5.

By law, the common jails of the Counties are designated—1st, For the detention of persons *charged* with offences. 2d, For persons committed as witnesses on criminal trials. 3d, Persons under sentence, after conviction. 4th, All other persons committed for any cause, authorized by law, (except fugitive slaves.—COMP. L. § 6129.

It would seem then that the Board of Supervisors of the County have no power to *remove* the jail from the city of Ann Arbor and combine it with a County Farm Reform School, or any scheme of like character—that they have no power to direct the place of confinement or punishment of any offender, and no power to control the discipline of any convict, vagrant, or other person under sentence, or surveillance. They *have* power to audit the criminal claims and expenses.

All that can be done in the present report is to bring the matter to the notice of the people.

The more it is discussed the more clearly it will be seen that some reform in the older counties of the State is needed in management of criminals, vagrants, paupers, etc.

Under the Constitutional power permitted to Boards of Supervisors, only a brief act of the Legislature is needed to enable such Boards to build up a system of combined management for criminals (of the lower grades) vagrants, juvenile offenders, and paupers, which shall achieve the combined object of punishment, reform and protection, better than the present jail, plan with the added advantage of being in part, if not altogether, self-supporting.

Your Committee report herewith a resolution, and beg to be discharged from the further consideration of the subject—all of which is respectfully submitted.

PHILIP WINEGAR,
PETER COOK,
AUGUSTUS BOND, } Com.

*Resolved*, That a committee of two be appointed, consisting of J. Gilbert and C. Holmes, jr., with instructions to ascertain and report at the next regular meeting of the Board: 1st, Is there any combined plan for Jail, Poor House and Reform School, used in any County or State within the range of their inquiry? 2d, Is any such system feasible? 3d, The probable legislation needed. 4th, The estimated expense of inaugurating such system, and that all actual expenses of said Committee in their duties be allowed and paid.

## CURRENT EVENTS.

Last Saturday's news brought one of the most heartrending events it has been our lot to record. Near Lockland Ohio, on the Cincinati, Hamilton & Dayton Rail Road. Says an eye witness.

"When I reached the scene of the accident the flames had consumed a part of the first sleeping car, but the shrieks which came from within proved too plainly that its occupants were yet alive. The efforts of those who endeavored to make a way of escape for the inmates were of no avail, and in a few moments the frame work of the car fell in, disclosing the charred remains. One of the ladies had succeeded in forcing her head and one arm out of the window, but being fastened by the seats falling upon her, was unable to extricate herself further. Her sister was also horribly burned, nothing but part of her shoe and stocking remaining intact. The gentleman, whose name I did not then know, (but have since ascertained to be a Mr. Jackson, of Boston,) had succeeded in making his escape, but hearing the ladies renewed cries for help rushed back exclaiming, "My God can you hear those scream so and not help?" He was to late too render any assistance, however, and smothered by the smoke or consumed by the flame, was in a few moments a blackened corpse. The passengers in the fatal car had all arisen and completed their toilets when the awful crash came. It is supposed that death came to two of the sufferers immediately, as the head of one was completely severed from the body, while the other was disemboweled. Added to all of this horror, the steam from the locomotive was boiling the mutilated bodies of both the living and the dead, and ere long a sheet of flame went whirling through the car, which had ignited either from the lamp or the car stove, charring and blackening five human beings beyond a hope of recognition. With her lower extremities fastened between heavy pieces of timber, one of the sisters succeeded in getting her head out of a window, but her screams for help were vain. An effort to relieve her from her dreadful position was made, but the remorseless element was stronger than human hands, and the wretched woman was abandoned to her miserable fate.

Four of the ladies burned were sisters by the name of Morgan, supposed to belong in New Orleans. They had just returned from a visit in Canada West, and were on their their way home. They were elegently dressed, and seemingly of wealthy families, and spoke both French and German, as well as English, fluently, as those say who had seen them before the accident. The young ladies, or one of them at least seemed to have a presentiment of some approaching evil, as not unfrequently happens just before such disasters. Some time before the accident she arose and dressed herself, and seemed uneasy, as did others, during the night. If they had such a presentiment, it was fearfully fulfilled.

Four trains run on a single track at this time of day—a passenger train up, a passenger and two freights down —with only a margin of about ten minutes. Those in charge of the freight train that ran into the other say they saw no signal on the rear platform.—The morning was dark and foggy,—The train from Cincinnati, on which I was, just escaped a collision with the the freight train that preceded the unfortunate passenger train.

Weston has made his fourth attempt to make his one hundred miles in 24 hours, and failed.

The Congress Judiciary Committee have reported in favor of impeachment. It is doubtful, however, whether it will be done. *Too many* cowards in the present Congress.

Dr. Livingstone has again been resuscitated. The news is pleasing, and we hope it can be authenticated. He was seen in the interior of Africa alive and well. There are no particulars, and the confirmation of the announcement will be eagerly looked for.

The loss of life on the island of Luzon during the late storm, was 10,000. Whole villages were swept away.

Jeff. Davis' trial is postponed until the 25th of March next.

Gen. Grant says.

As to my principles, I have not meant to leave any one in doubt. I would save the country—I would save it in the shortest way under the Constitution. If there be those who would not save the country unless they could at the same time save their own theories, I do not agree with them. My wish is to restore all the States to their proper relations as such, and upon the principles of even handed justice. What I do in the premises I do because I belive it helps to save the country, and what I forbear I forbear because I do believe it helps to save the country. I shall do less whenever I believe that I am doing what hurts the cause. I shall do more whenever I shall believe that doing more will help the cause.

Lincoln-like, Gen. Grant will be a safe man to elect President. His administration, judging from his acts, would be an honest and economical one, and this is just what the people are aching to see. He has issued an order reducing the army.

Gen. Butler has made a speech in the House, favoring the substitution of greenbacks for national bank notes.

SALINE, Nov. 26, 1867.

*To the Editor of the Commercial:*

DEAR SIR:—Pardon me if I intrude myself into your studio with a few facts for your paper. I write from *Saline*. This village is one of the finest inland towns of the Peninsular State—surrounded by a wealthy farming country. It has three churches—Presbyterian, Baptist and Methodist—the latter being the largest. The Pastors of these churches are, Rev. Mr Adams, of the Presbyterian; Rev. Mr. Armstrong, of the Baptist, and Rev. Mr. Hickey, of the Methodist. Rev. Mr. Armstrong has been here the longest—perhaps five or six years. Rev. Mr. Adams came last summer, and Mr. Hickey was appointed here at the late session of the Detroit Conference in September last. The Baptist congregation are refitting their house on the inside, having already greatly improved its exterior with two coats of paint. I understand it will be reopened in two or three weeks. The congregation at the Presbyterian House, are canvassing, I understand, to rejuvenate their house outside and in. The Methodists have changed the complexion of their church for the better, having painted it on the outside, put on blinds, frescoed and painted it within, also changed the singers from the gallery to the orchestra at the right of the pulpit. They are now going on to cushion the remaining 17 seats below, which they proposed to have done for Thanks giving service (28th inst.) They have rented all their seats in the audience-room but four. They are talking of fitting up the seats in the gallery—to rent. They had a Festival for their Sabbath School Library on the 8th inst. The net receipts of the same was $212.59. But, Mr. Editor, I think the tone of these Saline churches may be *greatly* improved.

The public are talking about a railroad from Ypsilanti to Tecumseh. What do you Ypsilantians say about such a project? Are you ready to cooperate with the Salineites?

"OBSERVER."

### CONGRESS AND THE REPUBLICAN PARTY.

The Washington correspondent of N. Y. *Independent*, intimates the future course of Congress and the Republican party. Live or die, the party must stand to its principles. If it abandons its principles for the sake of the spoils it should and will certainly die; if it adheres to its Godlike principles, it will certainly be the ruling power in this nation for a quarter of a century to come.

There are certain things which will be done:

First, the Republican party will stick to the principle of manhood suffrage—North as well as South. I have not seen one Republican Congressman who dares speak one word in favor of abandoning this issue. Men like Senator Trumbull doubt the constitutional power of Congress to enact equal suffrage in the States, but advocate its adoption through State legislation. They voted for it in this District, where they had the power, and established it.

Senator Wade says: "The negro suffrage amendment defeated us in Ohie; but I am glad we made the issue, and I would do it over again!" Speaker Colfax writes to a friend: "The standard must not be lowered *an inch!*" There will be no retreat, therefore, on this question. If we fall, let us fall like men—say all Republicans I have seen in Washington.

Second, Congress will remodel the tax and tariff laws. The taxes must be reduced, and the tariff will not be increased. The country will not endure it. There is a growing feeling in favor of reducing the tax on whisky to fifty cents per gallon. At two dollars the tax *cannot be collected*. The temptation to fraud is so enormous that it is not resisted. The Government, so far, has made a shocking failure in the business. I will not stop to inquire whether it is the fault of Congress, or of the President; but the fact is that *three-fourths of the whisky manufactured escapes taxation*. Something must be done to cure this evil; and in the opinion of many the shortest way is to reduce the tax. This, however, is not the opinion of Commissioner Wells, I believe. It certainly was not last winter. The West will clamor for a light tax.

Third, Congress will put a stop to contraction, I fear. The West is bent on having a large amount of currency afloat, and Republicans will join Democrats in the movement. The Administration will gently oppose it. The President sides with McCulloch on financial questions, but he has not a particle of influence in Congress. This may seem strange, but it is true. There is not a Democratic member of either house, unless it is his son-in-law, in the Senate, who is influenced in the slightest degree by what he says or does when it comes to voting.

To escape trouble by running away from duty. Jonah once made the experiment; but soon found himself where all his imitators will soon find themselves. Therefore manfully meet and over come the difficulties, and trials to which the post assigned you by God's providence exposes you

CRUEL.—Mothers, a word with you. Having arrived at years of discretion, you are at liberty to sacrifice comfort to fashion, but *not* the right to murder your children. Yesterday, we saw a little girl, led by its mother through the street. Her little collar and muff and hat were of the warmest fur, and well she needed them, for it was bitter cold; but her little legs, bare and blue, between her stockings and skirts, told a shivering tale. What inconsistency! Shall we bundle our childrens' necks, that really don't need bundling, and allow their legs to go without even a thickness of muslin to puotect them from the keen winter's blast? A curse on the fashion that kills or makes invalids!

ENTERPRISE IN EDUCATION.—No system of education is better adapted to rouse, strengthen, and give force to the mind, than the instruction of a first class Business College. Such an institution is located at Ann Arbor, Mich. It is worthy of note, that while inferior Commercial Colleges, which have very inflated pretensions, are terminating their ephemeral existence, this Institue has kept on steadily advancing, till today it is more prosperous than ever before. Mr. I. A. Sanderson put one of those ventilators in one of our stoves. We find it of utility, saving fuel, throwing out more heat, well worth the money. The agent remains in town a few days at the Bucklin House.

**The Gospel of Temperance.**

Rev. J. S. Smart, having delivered several lectures, urging the importance of enforcing law, proposes now to call the attention of the people to the *Gospel of Temperance*.

Next Sunday evening he will preach on the Origin of Temperance Reformation in this country, showing the positions taken by Dr Dwight, of Yale College, Dr. Rush of Philadelphia, and Rev. Lyman Beecher, of Litchfield, Ct., more than half a century ago.

**Thanksgiving Day.**

The Baptists, Methodists and Presbyterians united in public worship at the Methodist E. Church. Rev. C. E Hewitt delivered a sermon to a large congregation from Rev. 19:6, "For the Lord God Omnipotent *reigneth.*"—While praise and thanksgiving is becoming the day, yet the social evils prevailing embitter the cup. The disposition to shirk all moral issues in political affairs, patronage of sinful amusements, increased desecration of the sabbath, low state of religion. But this was not his mission to unfold these to-day. In response to the four and twenty elders shouting Allelula, a grander voice was heard, saying "Allelula, for the Lord God Omnipotent reigneth." Order is a striking element in God's universe. The fact that God works by plan is evidence of the ultimate triumph of truth. It is an encouragement to Christians that they are laboring in harmony with the Divine plan. Christians must not falter in carrying on great reforms. God reigns, and will crown their efforts with ultimate victory. Seeming defeats are the forerunners of glorious triumphs. Dark and foreboding was it for the cause of humanity just prior to the late war, but God found the way to remove the thick veil and overthrow the direful curse. A collection was taken up for the Home Association. Rev. Mr. Smart, in his apt way, putting the audience in good humor.

At the Episcopal Church, the pastor, Rev. Mr. Wilson, preached to a good congregation, from Isa 60; 12. "For the nation and kingdom that will not serve thee shall perish, yea these shall be utterly wasted." He illustrated by the history of the downfall of those nations who have disobeyed God. Developed the necessity of divine and human government and law, and what man would do were it not for their restraining influences. Applied these facts to our own country, foreshaddowing its future glory if God's laws are obeyed and equal and exact justice be meted out to all its citizens. Gave an earnest warning and exhortation to young men, the future of the Republic resting upon them. A handsome collection was taken up for the Ladies Home Association.

**J. S. C. Abbott at Hewitt Hall.**

Mr. Abbott is by no means an orator. The hearer readily discovers that his forte is history. In this department he is brilliant. The Napoleons are his beau ideals. He interests an audience because he is passionately fond of his theme. He is evidently honest in his views. It will be difficult to persuade the majority of Americans to adopt his views. He entirely lost sight of Napoleon's sympathies for the rebels, and his wicked interference in Mexican affairs. His pleas for the Emperor and the Pope as against Garribaldi repelled every right thinking hearer: yet the audience could not but admire his enthusiasm, and be unwillingly led captive in admiration of the Uncle and Nephew who have accomplished so much for the Bonaparte name, and for the temporal glory of France. He gave a graphic sketch of the invasion of France to maintain the Bourbons, the uprising of the Republicans, the beheading of the King, the hurling back of the invaders, Napoleon's return from Egypt, his stay of the ceaseless guillotine by assuming dictatorial powers, and thus giving internal peace to France. How the Monarchs of Europe could not brook that one of the people should govern—to see aristocracy thus crushed and the masses rule—Europe thus combining against the "Little Corporal," and after a series of mighty conflicts, placing "the man of dustiny" upon the Island of Elba. His return, reception by France, his presence disarming all opposition, and inspiring such enthusiasm as no mortal man ever did before. "Without shedding one drop of blood, placed the second time on that throne of popular rights which the people had given him." His farewell to the Old Guard on the eve of his departure to St. Helena was thrillingly impressive. His description of the nephew, early life, imprisonment, escape, brief residence in America, final restoration to his country, election to the Convention by 60,000 majority in Paris, election to the Presidency by 6,000,000 votes; his bold strike to ward off the blow about to be struck against him, and the action of the French people in restoring the Empire in the person of Napoleon III. by over 7,000,000 votes; description of character—pensive, sad, shrewd, scholarly—all was told in a manner calculated to prejudge the audience.

After the lecture, Dr. Rexford invited a few friends at his house, where a pleasant half hour was spent in social converse with the family and their guest, Mr. Abbott.

### PROF. AND MRS. RIPLEY.

The following resolutions are appropriately just. We gladly publish and endorse them:

WHEREAS, E. L. Ripley, Professor of Mathematics, and Mrs. E. L. Ripley, Preceptress of the Michigan State Normal School, having labored with us for several years with untiring zeal and successful efforts, deemed it proper to withdraw themselves from this field of labor; Therefore,

*Resolved*, That we the students of the school, unitedly express our regret at the unexpected separation from teachers so faithful and highly esteemed;

*Resolved*, We extend to them our heart-felt thanks for the deep interest manifested in our culture, both intellectual and moral;

*Resolved*, We, the young ladies of the school, will ever strive to imitate the examples set before us by Mrs. Ripley, both as a lady and christian, and will endeavor to bear in mind the good advice which she has oft times given us.

*Resolved*, While we ever cherish them in our memory, we would cordially recommend them to the public, in the assurance that they will not only be found to adorn their profession, but an ornament to society.

*Resolved*, That these Resolutions be printed in the Ypsilanti COMMERCIAL, and a copy sent to Prof. and Mrs. R., and also a copy to a leading Press in Columbia, Mo., requesting to copy.

LUCIA FISHER,

### A COMPLIMENT TO A FELLOW CITIZEN.

The *Saginaw Republican* speaking of Mr. Charles Woodard in connection with the completion of the Jackson Lansing and Saginaw road, says—"And we cannot omit to mention the labors of Woodard, the construction engineer. From the first to last has labored as few men work, building a railroad. Almost alone he has run the lines, his own hands planted stakes made profiles, estimates, plans for all the bridges, and depots: through heat and cold, over upland and swamp, in marches and bayou, he has toiled on foot, with instruments and tools; engineering, working like a laborer doing any and everything to make the line a success and economise the means of the company. To him much of the credit of the speedy success of the work is due, and we hope he may stay long witn us to secure some of the benefits of his hard and self-sacrificing labor in the past.

NO BETTER PROOF REQUIRED—It has not yet been publicy denied that the Best Ohemical Saleratus made by D. B De Land & Co, is all that its friends have claimed—that is a pure and wholesome article. This cannot be denied in face of the testimony of chemists and those best qualified to judge. It is much better than Soda.

THE BOARD OF HEALTH—If we were constituted the Board of health to guard against cholera the comming season, our first advice would be to have the blood in good condition. The only way this can be done effectually is by using J. W. Poland's Humor Doctor, the sure cure for all diseases of the blood. Put up in large bottles for sale by all druggists.

MUCH WEAR AND MANY WASHINGS.—I am acquainted with variety of sewing machines, and, while ready to do justice to all, I greatly perfer yours—which I have used for more than three years. Very slight instruction and ingenuity are required to use it. The needle is short and srtaight, consequently not liable to bend or break. It never misses a stitch, and a firm even seam. I have used it on every kind of cloth, from delicate lace to heavy woolen, and find its work perfectly satisfactory in all cases after much wear and many washings, the stitch retains its beauty and firmness—even after the fabric has worn out.—Mrs. J. H. Yerks, Rochester N. Y., to Wilcox and Gibbs S. M Co., May. 1866.

DOWN AMONG THE DEAD MEN, are, at this moment thousands who might have been alive and well had they used that great life preserver, Plantation Bitters. Let the living lay it to heart that they are the best known remedy for all dyspeptic complaints, stomach derangements, and general debility. As a delicious cordial, combined with great tonic virtues, their equal cannot be found.

Delicate Females, Clergymen, Merchants, Lawyers and persons of sedentary habits—particularly those who are weak and suffer with mental depression, are greatly benefitted by these Bitters.

HORRIBLE ACCIDENT.—A man some time since was repairing a gas leak, corner of 28th Street and 6th Avenue, New York. He went into the excavation and then lit a match. An explosion of the gas took place, and the man was much burned. DR. TOBIAS' Venetian Liniment was applied freely, and in three days the man was about his business in the Manhattan Gas Works as well as ever. His name is Samuel F, Waters. This is one of the wonderful cures made by DR, TOBIAS' celebrated Venetian Liniment; it is not only good for Burns, but for Old Sores, Bruises, Chronic Rheumatism, Sore Throats, Cuts, Insect Stings, Pains in the Limbs, Chest and Back; also internally, for Colic, Cramps, Diarhœa, Dysentery, and Croup. It is perfectly innocent to take internally, and is the best family medicine in the world. Orders are received all over Europe for it. The most celebrated Physicians recommend it—it never fails. DR TOBIAS puts up every drop himself. Sold by all Druggists at 50 cents and $1 per bottle. Depot 56 Cortlandt Street, N. Y. 189 4w.

THE SNOW FLAKE.—The Poets and writers of romance often refer to the snow flake as an emblem of purity. When we see the snow falling gently to the ground, we think of D, B. De Land & Co's., *Best Chemical Saleratus*, which we think is quite as pure and produces biscuit nearly as light. It is full weight and you therefore get more Saleratus for the same money.

Madame ZADOC PORTER'S BALSAM is a purely Vegetable Expectorant, prepared with great care and scientific skill, from a combination of the best remedies the vegetable kingdom affords.

Its remedial quantities are based on its power to assist the healthy and vigorous circulation of the Blood through the Lungs

It enlivens the muscles and assists the skin to perform the duties of regulating the heat of the system, and in gently throwing off the waste substance from the surface of the body.

It loosens the phlegm, induces free spitting, and will be found VERY AGREEABLE TO THE TASTE. It is not a violent remedy, but emollient, warming, searching and effective; and can be taken by the oldest person or youngest child.

THE INVALUABLE HOUSEHOLD JEWEL.—We have had in use, from two to four years, the instrument purchasd of you, and it has given us so great satisfaction that we desire to recommend it, as an invaluable Household Jewel, to all our lady friends. It is so very simple that it never gets out of order—so light running and easily managed that a child can use it—so reliable in action that it never misses a stitch—and so quiet that it may well be styled the "silent" sewing machine. We have always found the seam perfectly reliable, never ripping in washing or wear, or in any way failing till the garment is worn out.—[Letter to Willcox & Gibbs, dated South Shaftsbury, Vt., Dec. 11, 1865, and signed: Mrs. D. G. George, Mrs. W. P Matteson, Mrs. J. Burden, Mrs. F. Traver, Mrs. R. Stone, Mrs. D. G. Smith, Mrs. F. Cole, Mrs. C. Bates.

UNLOCKING THE ROCKS. The great cost of silver and gold arises not so much from their scarcity in the earth, as the difficulty of extracting them from their stony combinations. Dr. J. C. Ayer, the well known chemist of Massachusetts, has cut this gordian knot. After having merited and received the gratitude of half mankind by his remedies that cure their diseases, he is now winning the other half, by opening for them an easy road to the exhaustless treasures of the hills. He has discovered and published a chemical process, which renders at little cost, the hardest rocks and ores friable like chalk, so that the precious metals are loosed from their confinement, and easily gathered. Mines too poor to pay, may be worked at a profit now, and the yield of rich mines is largely increased, while the cost of extracting the metals from the ore, is diminished. Either is a great achievement, to enrich mankind, or cure their diseases. But we are informed our celebrated countrymen adheres to the latter, as his specialty and chief ambition.—*Buffalo Sentinel.* 195-1w.

**MANDRAKE PILLS.**
*A Substitute for Calomel.*

These Pills are composed of various roots, having the power to relax the secretions of the liver as promptly and effectually as blue pill or mercury, and without producing any of those disagreeable or dangerous effects which often follow the use of the latter.

In all bilious disorders these Pills may be used with confidence, as they promote the discharge of vitiated bile, and remove those obstructions from the liver and biliary ducts, which are the cause of bilious affections in general.

SCHENCK'S MANDRAKE PILLS cure Sick Headache, and all disorders of the Liver, indicated by sallow skin, coated tongue, costiveness, drowsiness, and a general feeling of weariness and lassitude, showing that the liver is in a torpid or obstructed condition.

In short, these Pills may be used with advantage in all cases when a purgative or alterative medicine is required.

Please ask for "Dr. Schenck's Mandrake Pills," and observe that the two likenesses of the Doctor are on the Government stamp—one when in the last stage of Consumption, and the other in his present health.

AN INVALUABLE MEDICINE
FOR THE PURIFYING OF THE BLOOD
DR. J. V. POLAND'S
# HUMOR DOCTOR.
A Positive Remedy for all Kinds of Humors,
PARTICULARLY
Erysipelas, Nettle-Rash, Salt Rheum, Scrofula, Carbuncles, Boils, and Piles.

It is very easy to say of this, as of any other medicine, "It is the very best remedy known." It is not always so easy to prove it. It is, however, exceedingly gratifying to the Proprietor of this medicine, that, while he declares to the public that this is a most wonderful and effective specific for Humors, as stated above, he has abundant proof at hand to sustain his statement.

For sixteen years the HUMOR DOCTOR has been manufactured and sold, and every year has increased the value of its reputation, and the amount of its sales. In New Hampshire, where it originated, no remedy for Humors is so highly prized. An eminent physician (now an army surgeon) when practising in New Hampshire, purchased between fifty and sixty gallons of it, during some seven or eight years, and used it in his practice. He has since then ordered it for the hospital where he was stationed. Other physicians have purchased it, and have used it in practice with great success. When the Proprietor lived in New Hampshire, at Gilmanstown Centre, for the space of thirty or forty miles around, and in Manchester particularly, the HUMOR DOCTOR was well known and highly valued for the numerous and wonderful cures which it effected. Though manufactured in large quantities the supply was frequently exhausted, and purchasers had to wait for more to be made. In that region some very severe cases of Erysipelas were treated with it—and they were cured! Erysipelas sores, or carbuncles, those ugly, painful ulcers, were entirely removed wherever this medicine was faithfully used. So it was with Scrofula and Salt Rheum. The HUMOR DOCTOR cured them.

For the sake of showing what is thought of it, a few testimonials are here inserted:

**Milton Gale, Esq., Boston.**

*I hereby certify that I was sorely afflicted with Boils for two years, destroying themselves upon my limbs and other parts of my body. The sufferings which I endured from them are indescribable. Suffice it to say that I faithfully tried several of the most popular humor remedies, but without removing the affliction. At length, by the earnest request of an intimate friend, I was induced to try Dr. J. W. Poland's Humor Doctor, and am very happy to attest that all my Boils were removed, and my health was restored by using Dr. Poland's aforesaid medicine.*

*BOSTON, Jan. 14, 1856. MILTON GALE.*

**Mrs. Wheeler, Stoneham, Mass.**

*I very confidently and earnestly recommend Dr. J. W. Poland's Humor Doctor as an excellent remedy for Humors, having been wonderfully benefited by it myself. My own case was a very severe and obstinate one. For more than two years the skin upon the inside of both my hands, and even down on the wrist, was constantly cracked and broken open, so that I was unable to use my hands in cold kinds of wet work, and was obliged to wear gloves in sewing to avoid getting blood upon my work. The humor which so afflicted me was probably a combination of Erysipelas and Salt Rheum. My general health was quite poor. Soon after I began to use the Humor Doctor I could perceive signs of healing. I continued to take the medicine till I was finally cured. My hands are now perfectly free from humors, and to all appearances my whole system is clear of it, and has been for several months. I used eight bottles before I felt safe to give it up entirely, but they cured me.*

*HARRIET WHELLER.*

*ETONEHAM, Mass., July 5, 1856.*

**Mrs. Porter, Dover, N. H.**

*DOVER, N. H., July 22, 1855.*

*DR. POLAND: I received your letter inquiring as to the effects of your medicine on sea-sickness. I am happy to say that I think it is "the medicine" for that dreadful sickness. I tried various prescriptions, but found none that settled the stomach and cleared the head like the Humor Doctor. I felt as though I could hardly wait to get ashore, to entreat you to introduce it into ship chandlery stores, that it may find its way to those who suffer upon the mighty deep from sea-sickness. If captains who take their families with them, or ocean passengers, should try it for once, they would never be willing to voyage without it.*

*Yours, HARRIET M. PORTER.*

*Much more might be stated in relation to this medicine, as contained in testimonials, but it is needless. Ask Manchester druggists about it, especially F. W. Blake, at Barr's. Inquire of Mr. Henry Plumber, of Bedford, whose wife was cured by it of Salt Rheum. Ask almost any person in Goffstown, and they will declare its value as a remedy, as used in their own cases or by their friends.*

# HALL'S
## Vegetable Sicilian Hair Renewer

*Has stood the test of seven years trial by the public; and no preparation for the hair yet discovered will produce the same beneficial results. It is a new scientific discovery, combining the most powerful and restorative agents in the* VEGETABLE KINGDOM. *It restores* GRAY HAIR TO ITS ORIGINAL YOUTHFUL COLOR. *It makes the scalp white and clean; cures dandruff and humors, and falling out of the hair; and will make it grow upon bald heads, except in very aged persons, as it furnishes the nutritive principle by which the hair is nourished and supported. It makes the hair moist, soft, and glossy, and is unsurpassed as a* HAIR DRESSING. *It is the cheapest preparation ever offered to the public, as one bottle will accomplish more and last longer than three bottles of any other preparation.*

*It is recommended and used by the* First Medical Authority.

*The wonderful results produced by our Sicilian Hair Renewer have induced many to manufacture preparations for the Hair, under various names; and in order to induce the trade and the public to purchase their compounds they have resorted to falsehoods, by claiming they were former partners, or had some connection with our Mr. Hall, and their preparation was similar to ours. Do not be deceived by them! Purchase the original: it has never yet failed. Our Treatise on the Hair, with certificates, sent free by mail. See that each bottle has our private Revenue Stamp over the top of the bottle. All others are imitations.*

## THE AMERICAN
## COOKING STOVE

After twenty years experience in the manufacture of stoves, we became convinced, some six years since, that a vast amount of money was being expended by the people of this country, in buying cheap and almost worthless stoves, a large portion of which was wasted; and that true economy consisted in buying the best stoves that could be made, notwithstanding the price was higher. With this view we proceeded to construct the American Cooking Stove, and spared no pains or expense to make it the best and most perfect stove that could be made. And we have experimented with it, and carefully watched its operation for the last six years, and when an improvement suggested itself, we have at once adopted it, and we have several of these improvements secured by letters patent. In this manner, we do not hesitate to say, we have brought it to a higher state of perfection than has heretofore been attained in cooking stoves. The recent improvements in this stove has added largely to its convenience and effectiveness. In all the varieties of stoves we manufacture, we study usefulness, durability, convenience and economy in operation, rather than cheapness in price, and in so doing we are satisfied we study the interest of those purchasing our stoves.

## AYER'S PILLS.

ARE you sick, feeble and complaining? Are you out of order—your system deranged and your feelings uncomfortable? These symptoms are often the precursors of serious illness. Some fit of sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and drive out the humors—purify the blood, and let the fluids move on unobstructedly, in health. They stimulate the organs of the body into vigorous activity, purify the system from the obstructions which make disease. A cold settles somewhere in the body, and deranges the natural operations of that part. This, if not relieved, will react upon itself and the surrounding organs, producing general aggravation, suffering and derangement. While in this condition, take Ayer's Pills, and see how directly they restore the natural action of system, and with it the buoyant feeling of health. What is true and so apparent in this trivial and common complaint is also true in many of the deep seated and dangerous diseases. The same purgative expels them. Caused by similar obstruction and derangements they are surely, and many of them rapidly, cured by the same means. None who know the virtue of these Pills will neglect to employ them when suffering from the disorders they cure, such as Headache, Foul Stomach, Dysentery, Billious Complaints, Indigestion, Derangement of the Liver, Costiveness, Constipation, Heart-burn, Rheumatism, Dropsy, Worms, and Suppression, when taken in large doses.

They are sugar coated, so that the most sensitive can take them easily, and they are surely the best purgative medicine yet discovered.

## AYER'S AGUE CURE.

For the speedy and certain cure of Intermittent Fever, or Chills and Fever, Remittent Fever, Chill Fever, Dumb Ague, Periodical Headache or Bilious Headache, and Bilious Fevers; indeed, for the whole class of diseases originating in biliary derangement, caused by the malaria of miasmatic countries.

This remedy has rarely failed to cure the severest cases of Chills and Fever, and it has this great advantage over other Ague medicines, that it subdues the complaint without injury to the patient. It contains no quinine or other deleterious substance, nor does it produce quinism or any injurious effect whatever. Shaking brothers of the army and the west, try it and you will endorse these assertions.

Prepared by DR. J. C. Ayer & Co., Lowel Mass., and sold by all Druggists and dealers in medicine everywhere.

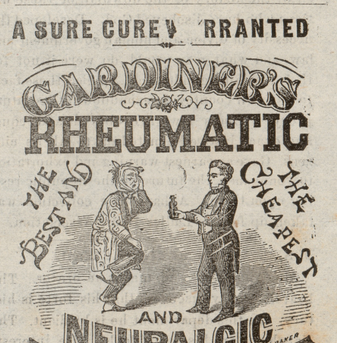
A SURE CURE WARRANTED



A WORD TO THE PUBLIC.

As the forms or the disease for which we prescribe the Compound have here its origin in the blood, let the sufferer remember that no merely outward application will afford him a permanent relief. The Compound, going into the blood (THE CITADEL OF THE DISEASE), drives it from its stronghold, and the victim is relieved.

☞ This SHOULD NEVER BE FORGOTTEN.

## USE GARDINER'S RHEUMATIC AND NEURALGIC COMPOUND.

MR. H. R. GARDINER, Proprietor:
CHICAGO, Nov. 15, 1866.
SIR.—Having been afflicted with the Neuralgia in my face for six months, a friend induced me to try your Compound, and I can cheerfully say I found it the only relief I ever obtained. I recommend it to all who are troubled with this terrible disease. Yours respectfully,
A. BOOTH,
Oyster Dealer, cor. Madison and Dearborn Sts.

DR. GARDINER, Proprietor of Gardiner's Rheumatic and Neuralgic Compound:
CHICAGO, Aug. 28, 1866.
DEAR SIR.—It is with great pleasure that I testify to the merits of your invaluable medicine. Having been afflicted with neuralgia for more than a year, causing me great annoyance as well as suffering, and after trying almost every remedy that could be obtained, and finding no relief, I was induced to try your Compound, and am happy to say that one bottle effected me, and I heartily endorse all that is claimed for it. I cheerfully recommend it to all who are suffering from Neuralgia or Rheumatism, as a safe, speedy and effectual remedy. Yours truly,
W. M. HOPKINS,
Firm of Merrill & Hopkins, 20 Lake St.

This wonderful Medicine—entirely vegetable in its character—has never failed in a single instance. In upwards of twenty cases in which it has been tried, Wherever it has been introduced it has met with the most marked success. It has probably relieved more human suffering, and cured more bona fide cases of Rheumatism and Neuralgia than any other one, or twenty medicines, and is destined ere long to become the only specific on the Globe.

☞ THE PRICE IS LOW, AND THE BOTTLES ARE LARGE.
